

PROPOSED REPORT OF STIPULATIONS

On Thursday, November 20, 2008, at 9:00 AM, a status conference was held regarding Docket No. 2008-196-E via conference call. The following persons participated in the call: Charles Terreni, Jim Spearman, Phil Riley, and David Butler for the Public Service Commission Staff; Chad Burgess for SCE&G; Robert Guild for the Friends of the Earth; Scott Elliott for the South Carolina Energy Users; Bob Perry for the Department of Natural Resources; Nanette Edwards and Shannon Hudson for the Office of Regulatory Staff; and individual intervenors Meira Warshauer, Pamela Greenlaw, Ruth Thomas, and Joe Wojcicki.

First, the Office of Regulatory Staff stated its order of witnesses at the hearing, and discussed issues related to its presentation of a "panel." Discussion was held as to possible placement of the panel table, and the procedure for questioning the members of the panel. Mrs. Thomas inquired as to possible arrangements for the hearing impaired, and David Butler referred her to Jocelyn Boyd of the Commission Staff. Questions were also raised by Mrs. Thomas about the status of answers to her interrogatories. Discussions were held about the procedure for the use of confidential material during the hearing.

The order of presentation of intervenor witnesses and order of cross-examination were also discussed, as well as the time that would be allowed for members of the public to express their views on the issues in the Docket, and related issues. It was suggested that the intervenors have a separate discussion to consider these and other issues. The intervenors would then make their views known to the Commission and the other parties.

Finally, an inquiry was made as to the availability of color copies of graphs in extra copies in the hearing room, as well as color copies available on the Commission's Docket Management System. David Butler stated that color copies of graphs would be available in the hearing room, but that he would have to find out whether color copies would be available on the Commission's Docket Management System. The parties are to be informed of the answer.

Respectfully Submitted,

/s/

F. David Butler
